

KS4 Skills Challenge Certificate (Welsh Baccalaureate Qualification)

Overview

The Skills Challenge Certificate was introduced by the government along with employers and higher education as they felt that students were leaving school without the skills needed for further education and future careers. This qualification enables students to develop skills that individuals are looking for when they leave school.

For example:

- Digital competency
- Creativity
- Critical thinking
- Numeracy
- Literacy

The Skills challenge certificate allows you to become entrepreneurs and visionaries. It allows you to become active members of the school community where you will communicate your ideas with local businesses and use a business idea to contribute towards charity. This subject could create the next David Attenborough, leading the way on climate change or Steve Jobs, creating new technologies for work places or communication.

KS4

Skills Challenge Certificate components	Weighting	Assessed Skills	Internal Assessment	External Moderation
Individual Project	50%	<ul style="list-style-type: none">• Planning and Organisation• Critical Thinking and Problem Solving• Digital Literacy	✓	✓
